

TECHNICAL DATASHEET

# STALOC PRIMER FOR INSTANT ADHESIVES

Pump spray

## PRODUCT DESCRIPTION

STALOC Primer for instant adhesives enables bonding of polyolefins (PE, PP) EPDM, PTFE, silicone and other materials that are difficult to bond. STALOC Primer for instant adhesives is recommended especially in combination with STALOC instant adhesives.

## PHYSICAL PROPERTIES

ATTRIBUTE	UNIT	SPECIFICATION
colour		Clear, visible under UV light
flashing point (ISO 2592)	°C	0°C
chemical basis		aliphatic amines in organic solvent
vapour pressure at 25°C	mbar	50 mbar
shelf life at +25°C		min 1 year

## APPLICATION

Recommended application – further information can be found in the material safety data sheet.

Apply a thin layer of the STALOC primer for instant adhesives onto the surfaces which need to be bonded. Wait for a few seconds for the primer to dry. Apply the STALOC instant adhesive (either on one or both sides) and press the parts together. Finger tight within 1-2 minutes. Final cure after 24 hours. Immediately close the bottle of the adhesive after use.

## SAFETY INFORMATION

Please send your request for the latest version of the material safety data sheet (MSDS).

## PACKAGING / VOLUMES

15ml pump spray á 20 pcs. per box
