

TECHNICAL DATASHEET

## STALOC BRAKE CLEANER

SQ-210

### PRODUCT DESCRIPTION

STALOC brake cleaner is a highly effective degreaser for industrial purposes, especially for automotive applications / motor vehicles. Main area of application is the quick cleaning and degreasing of disc brakes and other brake components. STALOC brake cleaner removes oil, wear debris and other residues from calipers, discs, pads, etc. The product is non-corrosive.

Removes silicone residues from metal surfaces.

### APPLICATION

Recommended application – further information can be found in the material safety data sheet.

Spray solvent onto the surface of the substrate until dirt and grease have been released. Apply the product with a clean wipe if necessary. Repeat cleaning operation for highly contaminated parts. The product might harm painted surfaces and plastics when extensively applied.

### TECHNICAL PROPERTIES

- quick cleaning and degreasing of brake rotors and other and other break components like calipers, break pads, etc.
- removes oil, wear debris and other contamination
- cleaner and degreaser for all parts of engines, clutches, gearboxes, carburetors, pumps, etc.
- well suited for removing silicone residues on metal surfaces

### SAFETY INFORMATION

Please send your request for the latest version of the material safety data sheet (MSDS).

### PACKAGING / VOLUME

500 ml 650 3e á 12 pcs. per box
