

TECHNICAL DATASHEET

STALOC MULTI POWER CLEANER

SQ-225

PRODUCT DESCRIPTION

STALOC multi power cleaner is a cleaning spray especially developed for industrial applications on metal and plastic surfaces. The main area of application is the industrial maintenance, repair and production. The product is used for the quick cleaning of break discs, callipers and other parts contaminated by oil, dirt or other industrial residual contamination. The powerful cleaner is non-corrosive and doesn't harm rubber, plastics or human skin when applied short-term by accident (quick evaporation!).

It is used as a cleaner and degreaser for all metals, glass, ceramics in industrial production and in workshops. It does not leave any residues. STALOC multi power cleaner can be used especially as a preparation for painting and grounding.

It perfectly removes felt pens and markers on various materials!

APPLICATION

Recommended application – further information can be found in the material safety data sheet.

Spray solvent onto the surface of the substrate until dirt and grease have been released. Apply the product with a clean wipe if necessary. Repeat cleaning operation for highly contaminated parts. The product might harm painted surfaces and plastics when extensively applied.

TECHNICAL PROPERTIES

The substance contains of acetone and special benzines, which are combined with an environmentally neutral propellant. The product is CFC-free and subject to the detergents regulation.
