

TECHNICAL DATASHEET

# STALOC PROSOLVE ORANGE CLEANER

SQ-240

## PRODUCT DESCRIPTION

STALOC PROSOLVE orange degreaser is suitable for quick cleaning of chains, bearings, rollers, PVC and plastics. It is especially suitable for cleaning aluminium surfaces without leaving any residual contamination.

- cleans without leaving residues
- not corrosive
- does not harm skin, rubber or sleeves
- evaporates quickly

Moreover, the product can be used as a cleaner and degreaser for metals (especially for surface preparation for application of paint or primer), glass, ceramic in workshop and production / assembly. Supports removing labels from any kind of surface.

## APPLICATION

Recommended application – further information can be found in the material safety data sheet.

Apply STALOC orange cleaner onto the surface that needs to be cleaned. If the pressure in the can doesn't rinse off the dirt, use a clean cloth to wipe away the residues. If necessary, repeat the cleaning process. STALOC orange cleaner is compatible with all metal surfaces and most of the plastic surfaces. Nevertheless it is recommended to check material compatibility before use or apply in a non-visible area.

## TECHNICAL PROPERTIES

The agent consists of an aliphatic solvent mixture and fragrances with the addition of environmentally neutral propellants.

Information according to EC Reg. 648/2004 on detergents:

- product contains >30% aliphatic hydrocarbons, perfumes (d-limonene).

## SAFETY INFORMATION

Please send your request for the latest version of the material safety data sheet (MSDS).

## PACKAGING / VOLUME

500 ml 650 3e á 12 pcs. per box
